2019 – 2020 Hotspot Information & Agreement

Optional

Derby Public Schools believes that a student's connectivity should not stop when a student goes home. In some cases a student may not have internet access at home. The district provides internet connectivity to students via a hotspot through a cellular carrier upon request.

If a student utilizes wireless networks at home or in public places to do school work, they may choose not to use a hotspot provided by the district. If students do not have wireless connectivity available at home to do their schoolwork, they may request a loaner hotspot from the district to use during the school year.

The student will be responsible for the handling and care of this hotspot, just as they are with their device. The same Acceptable Use and 1:1 Device Policy that applies to the device will also apply to the hotspot.

If the hotspot is damaged, lost, or stolen, the student **will be responsible for a replacement fee**. This must be paid to be issued a new one and until paid, it will be marked as an unmet student responsibility. The district's device insurance program **will not** apply to replacement of the hotspot.

Directions on how to use the hotspot will be provided upon receiving the hotspot.

Hotspot Agreement:

1. I have read and agree to comply with the Agreement for Use of Derby Public School District Student Device.
2. I agree to comply with the Derby Public School District's Acceptable Use Policy.
3. I understand that I may lose my hotspot privileges as a result of my inappropriate behavior, repeated data use overage and will be financially responsible for damage or loss of the Hotspot.
4. I will return the hotspot when requested at the end of the school year. I understand that I will be charged for any missing equipment.

I understand and agree to the information and terms of the Hotspot agreement:
